TEDDYHAUS
Teddy Schwarzohrhaus für Herzkinder

Linz

**Being alone ist isn't
for small children!**

Accommodation for families.

Herzkinder
Österreich

So that you can be there where your heart beats!

Accommodation with Heart.

House patron:
Thomas Brezina

The paediatric cardiac centre in Linz (Kinderherzzentrum Linz) always tries its best to accommodate every patient's mother in the child's room. In case this is not possible, there is also separate accommodation available for the parents. However, the number of these rooms is limited and therefore, it often occurs that parents do not have any other choice than to look for other accommodation during their child's stay. Expensive hotels are normally out of the question.

Just a „teddy's jump“ away from the paediatric cardiac centre Linz (Kinderherzzentrum Linz), we have created a cosy place for mums and dads. It is a little oasis where they can sleep, shower and regain their strength – so that they are only a heartbeat away from their child. Even though these flats will not replace your home, we truly hope that these 4 apartments, with 16 nicely decorated rooms (including recreational rooms), will give you comfort during your child's stay at the hospital. We truly want you to have the chance to be with your child at all times!

„Herzkinder Österreich“ and the association „Teddy Schwarzohrhaus“ create space to change things. Together, we can achieve even more!

Thomas Brezina became in 2010 the house patron of „Teddyhaus Linz“.

Hand on heart

„Home is where your heart
can laugh without dread and
dry its tears at rest.“
